

# Dyn365 PowerBI Solutions

Choose the PowerBI Solution that's right for you — JumpStart for Dynamics 365 users starting their Power BI journey, or Advanced for organizations that want to take Power BI to the next level with combined data sources and advanced training.

*Dyn365 PowerBI Solutions help you contextualize and visualize data in a browser, on a tablet, or on a phone. Choose the JumpStart solution or the Advanced solution. JumpStart is for organizations new to Power BI, focusing on Dynamics 365 data and basic Power BI training. Advanced is for organizations intent on drawing insights from multiple data sources and improving their internal Power BI skillset.*

- Visually explore your data with a freeform drag-and-drop canvas, modern data visualizations, and simple report authoring.
- Combine data from proprietary and public databases into one view. Use Power BI Pro to share and distribute reports to Dynamics 365 users or non-users.
- Ask questions in natural language, and predictive visualizations appear as you type.
- Create your own custom visuals or start with free pre-configured content packs and use Quick In-sights to uncover predictive patterns, associations, and trends hidden in your data.
- Use Power BI Pro to share and distribute reports with others without any complicated setup.
